

**Subject:** Clarification related to our position towards REACH (EC Regulation on chemicals)

Our Company, FILTES INTERNATIONAL S.r.l., is actively committed to comply with the European Regulation (EC) 1907/2006 related to the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH). We are fully co-operating with our suppliers in order to be assured that all substances are treated according to REACH regulation.

With reference to the items that we supply to our customers, we inform you that all substances in our products, which are submitted to recording, are registered by the importer within the supply chain. In particular, we asked to our suppliers to indicate the status of pre-registration and registrations of the respective substances, preparations and items. Updates on the status will be given if any change occurs.

We can confirm that our products are free of any substances included in the “Candidate List of Substances of Very High Concern (SVHC)” published in the public site of ECHA and updated to Jan 15th, 2019.

In conclusion, we can validate that all our products are free from containing substances listed in attachment XIV and XVII and from containing candidate substances for the inclusion to the attachment XIV of REACH.

Should you need further clarification or information about the measures of risk management regarding substances, preparations and items, please address an e-mail to Mr. Minissale Paride – [info@filtes.it](mailto:info@filtes.it)
